#### Exhibits

-----  
DC Parish has catalogued and stored the samples retrieved from the PM in preparation for submission for analysis. The deceased's bag has been retrieved from the property store and its contents will also be catalogued and stored appropriately.

#### Investigation Strategy

-----  
Considering the HAT advice to-date I have determined the following enquiries are required to progress this matter sufficiently for a Coroner's Inquest. Should any information come to light that would suggest criminal activity contributing to his death, this will be reviewed with the HAT.

#### Mobile phone records:

His mobile phone has not been recovered - I am told by a number of his friends/family that it is very unusual for him not to have it. We currently have his phone records as of Sunday 15/6 and they are in the process of being examined by an analyst due to the complexity of the data.

#### Movements on public transport:

We have commenced oyster card/cctv enquiries with TfL.

#### Social media activity in the week leading up to his death:

I understand he was due to meet a client in the IG11 area and indeed travelled to Barking on the 17/6. He last contacted his friends on the evening of 17/6 (2200hrs), saying he couldn't talk as he was "working".

We are going to search his room in Golders Green and recover his lap-top computer and any other relevant items. This will be sent for analysis. Open Source enquiries should also be made.

#### Financial enquiries:

We will look at his account usage leading up to his death.

#### Further local enquiries:

We have details of a

at a catering facility inside Barking bus depot, Longbridge Road, Barking, his works shifts, with one week of starting work at 6am til 2pm and one week of late turn, 2pm -10pm. Sometimes Steven covers extra hours for training but it is not known what hours these cover. Glen has known Steven to return home at 4am on only one previous occasion as he was awake when he returned home

Glen denies any involvement with drugs and has no knowledge of Steven taking or using drugs.

Glen does not know who Anthony WALGATE is and has not met anyone with this name. Steven has apparently never mentioned this name before.

I have been made aware that the CCTV from KB LT STN is no longer available as the system which downloadds the footage is defective after maintainence.

The exhibits seized from the home address of PORT have also been booked in at KW. PLease see book 170 number 3 for the details of these.

A number of exhibits are bodily samples and have been marked as hazards.

usage at 04:55:46 through to 04:48:00 on Wed 18/06 - it is impossible to infer what this new data indicates only that data has gone to the internet and back down to the phone at 04:48.

From here on in, all data that recorded connects to an aerial that signifies the handset is either off/out of power or out of range. (Again, in my experience is more likely the phone is off)

All events after this time indicate concerned friends calling the victim however being put through to his answer phone. Each line that shows him calling himself is the network (internally) calling his voicemail in order that callers in can leave a message.

#### TOXICOLOGY - Screening results

-----

The lab have picked up citalopram, diphenhydramine and chlorphenamine (antidepressants and antihistamines) on the screen - tests have been booked to measure the levels.

Gammahydroxybutrate (GHB) was also picked up in the urine screen - further work requested to verify its presence in the blood.

Common drugs of abuse were all negative.

Re 'poppers' apparently the lab have never had any success in picking up the constituents in blood so I did not propose to analyse the blood for the alkyl nitrites (poppers).

I have completed a report for the Coroner and hand delivered it to the Coroner's Officer. DC Slaymaker continues to update family and maintain contact with the lab re expediting toxicology tests.

The organs have been reunited with the body by DC Parish and Dr Biedrzcki does not require any further samples for examination. Any outstanding actions are being reviewed and completed as appropriate and an updated report has been passed to A/DI McCarthy by me for submission to SC&O1 SIO for review and comment.

I requested DC Parish complete an MG3 and I have endorsed it for submission to the CPS. I would consider the charge of Perverting the Course of Justice appropriate considering the false statement made by PORT resulting in a far more protracted investigation than would have otherwise taken place. Further to this, the family have also been subjected to a period of uncertainty while the deceaseds movements were established which further aggravates the offence.

Awaits CPS response and SC&O1 advice.

I understand a charge for Perverting the Course of Justice has been authorised. I will pass this report to DC Parish to conclude.
