I'll advise once the full PM is available, if that's OK.

Andrew,

We are still chasing the Full PM report as the doctor has not completed it as of yet. I do have statements from the lab detailing results of toxicology tests which were conducted. But I imagine that these will not suffice.

Kind Regards

Dave

Dear David

Rob Davis, the head of the CPS London Homicide Team, has asked me to provide charging advice relating to Stephen Port.

Having read the MG3, I agree with Rob's view that we need the full post mortem and toxicology reports in order to advise on the case. Please can you let me know when these will be available?
