PORT	No. No comment.
DC THOMAS	I think that it is only, I think it's important and fair to you that I go through some questions that I may have already asked in the previous three days in relation to those four males and in particular I want to give you an opportunity now to tell us if in anyway had you been in contact with any of these four males but their deaths were caused accidentally, I've already asked you previously, but the first thing before I ask any specific questions about the matters today is that I want to give you that opportunity so that I can be as fair with you as possible, so if we talk about Anthony WALGATE. You said that you had consensual sexual intercourse with him and that you thought that he had taken a drug and you left to go to work and came back and found him dead or dying. Stephen was it the case that you did give him some sort of drug perhaps GHB perhaps sedatives, perhaps something else and that you didn't intend to cause him any harm, you didn't intend to kill him, but it was part of having sex, having anal intercourse with him, it was part of that process that you gave him the drugs for and that somehow he ended up dying, but you didn't mean to cause him any harm and that it was accident, is that the case with Anthony WALGATE?
PORT	No comment.
DC THOMAS	Is it the case with Anthony WALGATE that you did give him some drugs and that you gave him enough knowing that it would render him unconscious and that you then had sexual intercourse with him so that you raped him, is that what happened?
PORT	No comment.
DC THOMAS	However is it the case that you did rape him, but at no stage did you have any intention of causing him serious harm or intend to kill him, is that what happened?
PORT	No comment.
DC THOMAS	Did Anthony WALGATE agree to have GHB with you either on his own or with you that evening?
PORT	[No reply.]
DC THOMAS	Was it your suggestion?
PORT	No comment.
DC THOMAS	But it was consensual from him, he consented, he agreed to have GHB in your flat so that you could have intercourse with him, is that what

	happened?
PORT	No comment.
DC THOMAS	But either that he accidentally took too much or that you accidentally gave him too much and he died as a result, is that what happened?
PORT	No comment.
DC THOMAS	Or did you intend on killing him when you gave him a drug to such high toxic levels that it rendered him unconscious and eventually led to his death?
PORT	No comment.
DC THOMAS	We have talked about your mental health, we have talked about your medical background, you have told me about your GP, you told me about the school you went to, at no stage have you mentioned any mental health issues any mental health background any medical issues or anything like that, is that right Stephen?
PORT	No comment.
DC THOMAS	In general you were fit man both physically and mentally, is that correct?
PORT	No comment.
DC THOMAS	Or was it the case that on this particular day so on the 18th to the 19th June 2014 that you had some sort of mental episode some lapse of your mental state of mind which led you to do something which you wouldn't normally ever think of doing, is that what happened?
PORT	No comment.
DC THOMAS	Is it the case somehow that you administered a drug to Anthony because he was, you thought that he was a threat to you and you were trying to act in self defence?
PORT	No comment.
DC THOMAS	Did you inject him GHB?
PORT	No comment.
DC THOMAS	Or a cocktail of drugs?
