Restricted Crime - CSM Briefing: Advice/ Action Report

I attended the scene and was briefed by CSM Tribe

There was some concern re the injury to his mouth and potential for an assault due to comment re shoe mark on the stomach.

No bleeding head injury but unable to exclude fracture and internal bleed.

No visible blood staining to pavement or around deceased. Area is a busy residential street close to a busy main road.

Beer can close to victim and appearing very recent to be retrieved.

Area around communal entrance fingerprinted by FP Y Trevena

Area outside 47 Cooke Street and the deceased recorded with stills by A Goddard

Forensic Strategy

- Establish cause of death
