Subject: Various updates

Andy,

Still here!!!

A frenetic couple of days. High volume of incidents and some higher risk issues.

In summary:

- The Walgate unexplained death - I spoke with John Sweeney this morning. The BOCU retain ownership (Eugene is SIO) but we have been well supported all day by the MIT. They despatched a DI (PIP3) and DS with team to conduct interview and oversee both CCTV enqs and forensic exam of Subject's flat. Various items have been seized inc computer. I extended his custody time by 6 hours along the way. He has been bailed pending the forensic results and that of the toxicology. Eugene is preparing a fuller briefing update which I will ensure comes to you. There is nothing to do with this over the weekend. John Sweeney is on call I believe if you need to speak further with him.

Sensitive/Irrelevant

There are plenty of other issues that have been dealt with but these are the ones that remain outstanding as we move forward.

Hope you enjoy the weekend.

Off for a glass of Pinot Grigio!

Mike
