Significant Incidents or Vulnerabilities (incl. Harm, Opportunity or Threat looking forward) Details of issues of note for SMT, including welfare / officer safety issues, items likely to attract media interest.)	Date: 20.9.14 Incident: Suicide (Non Suspicious) Cad 4433
	Location: o/s Barking Abbey - St Margaret's Cemetery
	Details: 1) Incident details Police called to Barking Abbey at 1120am by a passer-by walking her dog in the cemetery. She came across a white male 21 yrs old slumped against a wall in the corner of the graveyard and returned home to call police. Officers arrived to find the lifeless body of the male. Upon checking the body, officers found a driving licence in the name of the deceased. He is shown as a missing person from Kent Police (Gravesend) reported missing since Thurs 18th Sept by his

partner. Subject was last known to have gone to work on the E14 area where he works as a chef. Kent Police have been made aware and are informing next-of-kin. Misper was holding a very comprehensive suicide note. In the note, the victim makes reference to having gay sex with a male called Gabrelle Klein. They were high on the drug GHB (referred to in the letter as simply G). During sexual intercourse Gabrelle has apparently died and the victim has panicked and left him. It is this reason why he has taken his own life. It is not clear where/when or if this alleged incident has ever taken place. Kent and MPS indices checked but both negative for the details provided in the letter. Subject states in the letter he has mixed GHB and drain fluid together. Between his legs was a coke bottle ¾'s empty. Subject also states in his letter that he lost his phone in the cemetery. Area searched no trace. Officers did try to ring it but Kent Police state it has been unobtainable since he went missing. Scene preserved with a forensic tent and photog requested for coroners report. Awaits removal of the body under coroners instructions.

2) Who is leading?
