a male walks from the direction of the town centre and meets with the male who we believe to be Jack. Both males then walk towards the town centre together before they are seen to turn left into Clock House Avenue.

CCTV last shows them both together outside the Barking learning Centre. The male who was with Jack appears to be a larger built male IC1 with a bald head. At the time of the CCTV being reviewed it was not possible to get a facial recognition he sat that it is jack although officers believe it too be him.

I have just contacted Donna Taylor by phone and have updated on our enquiries today. She confirmed that the taxi company do refer to Jack as "james". I have informed her that she will be contacted later today by Ps Laffan

UPDATE FROM PS LAFFAN 12KG

I attended [DPA] and met with Donna Taylor (T[DPA]601),

I spoke with her for around two hours, she was disappointed that no one had been in touch with her or the family, i explained that the procedure that is to follow an incident like this.

I asked her to tell me about her brother and his movements/actions in the last few days. She was able to give a comprehensive account as has already been given to Pc Taylor.

I have provided her with my contact details (email address) and agreed a communication strategy. by email as needed and on the phone/in person (every 7 days).

I have tasked out the following actions

Night duty CID to attend the males work address and speak to his boss about his behaviour over the last few days.

Now that we have phone details this needs to be actioned, i will ask DS Sweetman

CCTV in Barking by both clothing and person. The male in the Barking CCTV footage was wearing a coat in Barking but not in the Trades Hall. We do know that Jack returned home before making the journey to Barking.

Jack is shown entering the hall at 22:31 and leaving at 00:35 hrs in a taxi on his own.

The still images of Jack from the Trades Hall were exhibited as MRB/1/2/3 and will remain with the case file. Mark did not have a memory stick to download onto but will get this done for us later. The CCTV system had no facility to record onto DVD.

From the cctv that we have been able to obtain so far we have images of Jack being dropped off at Station Parade opposite KFC at around 0248 hrs on Sunday 13/09/2015. He is the only person to be seen alighting that vehicle which appears to be the silver Ford Galaxy taxi from Alphabet cars. As the taxi drives off, Jack is seen to cross the road and loiter around on the pavement outside KFC near to a phone box. It is unknown if Jack goes into the phone box.

Jack is seen to wander along this area and goes out of shot for around 1 minute as he nears the junction of Cambridge road. He is seen to wander back into shot and continues to wait outside of KFC.

At around 0300 hrs an unknown male walks up Station Parade from East Street and meets Jack outside KFC. They both immediately walk together back along Station Parade towards East Street. This part has been captured by LBB&D cctv cameras.

Images follow the pair as they walk along Station Parade as they pass The Barking Arms Public House, The DayNight Pharmacy and Lloyds Bank. These three premises have there their own cctv and each show the two men in slightly clearer detail.

LBB&D cameras show the two men turn left from East Street into Clockhouse Avenue passing the back gates of the old Barking Police station. They then cross to the paved square at the front of the town

hall and the Barking Library. So far this is the last visual we have of the two males together. Close to this area is the new Barking Leisure Centre. There is no trace of the males on their cameras.

Enquiries have also been made at the Child and Family Centre Axe Street. Apparently they have just discovered a fault on their CCTV system and it appears that no images have been recorded for the past month.

Also in this area is a high rise block of flats called Waterman Court. There are two cameras on the outside of the building they may be of use. There is no on site concierge service for this block. From a cleaner I have obtained a contact of John Monigan [DPA] I've tried this number numerous times with no reply.
