Jon

This sudden death should sit with the respective ERT inspector. If he tasks out then he tasks out. I deal with more protracted sudden/unexplained deaths.
I suggest you speak to the ERT insp,

Niall

Subject: Sudden death **Jack Taylor**

Hello Sir,

I hope you don't mind me contacting you Regarding the sudden death of Jack TAYLOR who was found in Abbey ruins last week. Cris 5115434/15 Refers.

I was one of the officers who came across the male and done the initial investigation. Ds Sweetman and Dc Adeymo-phillips from CID attended and asked me to put a cris on and make him OIC. I have seen today that the cris has been showed back to myself from Ps Tanner with a list of enquiries/statements to complete.

On seeking advice from PS Donnelly he said I should ask yourself if you don't mind having a look at the cris and to seek clarification regarding these enquiries as I am not sure if these memo's are for myself or CID to complete. Looking through the actions I feel I would struggle completing some of them without CID support i.e. phone interrogation, checking social media accounts etc

My current role is a safer parks officer in a council funded role

Many thanks
Jon
