Dear all FYI

Please see that attached report from Detective Inspector Euan McKeeve from SCO1

SCO1 was called this afternoon as they had been investigating the possibility that 4 deaths on Barking may be linked. A man named PORT has been identified as being connected to two of those that died. All 4 appear to have died through an overdose of the drug GHB. All have been subject to Post Mortems where no evidence of 3rd party involvement.

The BOCU Officers have obtained a Section 8 PACE Warrant and MIT 24 will assist BOCU in executing the warrant and a Forensic Examination of premises. It is hoped that this may provide evidence of PORT's involvement or non involvement in the deaths. The matter will be assessed and a decision will be made as to whether SCO1 will take primacy.

John Sweeney
Det Supt SCO1
