On Monday 14th September 2015 I was on duty in full uniform in the company of Pc 820kg Holder. We were on cycle patrol in Abbey ruins, Barking when we were flagged down by a refuge cleaner who informed us that he was concerned about the well being of a male in the park, he said "there is a male round the corner slumped up against the wall who doesn't look good" we rode straight round to the area which was only about 50 yards away from where we flagged down.

It was 1310 hours when we rode over to the apparent Lifeless male who I now know to be Mr Jack TAYLOR Dob 20/06/1990. The male was sitting up against a stone wall in the south western corner of the green; he was slumped forward with his back up against the wall. He was an Ic1 male with short brown hair wearing a black jacket, blue shirt, Navy jeans and brown slip on shoes. His eyes were closed and he had a large amount of nose mucus coming from his right nostril. His skin colour was Ashen, he was cold to the touch and his body and joints were completely stiff as if rigor mortis had set in. I could smell faeces coming from the Lifeless body. It was also apparent that the Lifeless body was very wet due to the heavy rain showers that had recently occurred. There were no signs of life, chest movements or breath. It was very apparent the male had deceased. Pc Holder was with me as we examined the body for any visible injuries or suspicious circumstances. I could not see any visible injuries on the lifeless body apart from reddening crease marks around his chest area from where he had been slumped forward. The following objects were found on the clothing of the male.
