

Continuation of Statement of **DS Debbie Turrell** .....

attended with him to view the body of KOVARI. Teresa had mentioned the body being a lot more decomposed than she thought on only just having been found despite the hot weather.

I tasked TDC Adeyemo-Phillips to contact Slovakia to establish if the body of KOVARI had been cremated/buried.

The on call DI on the Sunday was ADI PEARSON based at Forest Gate out of courtesy I updated him re the progress and emailed him a copy of the OB as requested.

I was informed by A/DI Denley that DCI Lyons has requested a special Post Mortem. This had been forwarded to the East Team HAT who would allocate who would attend the PM. The HAT team provided the reference number of PATH/182/2014 from the CSM who authorised the special post mortem.

On Monday 22<sup>nd</sup> September 2014 I spoke to Jayne DAY the coroners officer she advised me she would notify me when the special post mortem for Daniel WHITWORTH would be. She would also locate the toxicology report in respect of KOVARI and call me back.

As the borough Family Liaison Co-ordinator I assigned DC Jackie Baxter as the FLO for Gabriel KOVARI family and DC Paul Slaymaker for the family of Daniel WHITWORTH. TDC Berry was assigned as the exhibits officer for the special post mortem of WHITWORTH. ADI SCHAMBERGER would also be attending. DCI Kirby – was updated to the progress of the investigation verbally. This has been recorded by myself however I may have made an error in recording this information as there is a Inspector Kirby but it is more likely I would have updated A/DCI Kirk. Inspector Kirby is a uniformed inspector on the borough and would act up as a uniformed CI and at that time may have been on duty at the weekend.

On Monday 22 September 2014 I was present when A/DCI Kirk had a meeting and I made brief notes in my day book in relation to this meeting. A/DCI Kirk requested cell site and call data, website grinder/bender to be explored, another statement to be obtained from the dog walker who found KOVARI and WHITWORTH, Search WHITWORTHS home address seize computer equipment/phones, drugs any diaries etc voluntary search to be conducted by Kent Police. I recall instructing TDC Adeyemo-Phillips to obtain a further statement from the dog walker who located the bodies and DC Slaymaker to conduct the Intel on the websites as mentioned. I would have instructed the FLO to conduct the work on the actual victims WHITWORTH / KOVARI to establish some knowledge re their lifestyles. The results for these would have been updated on the CRIS report and FLO log books.

I have supervised DC Slaymakers FLO logbooks but DC Baxter has never provided me with any FLO logbooks for signing. I am aware that we were unable to locate any FLO Logbooks at the time. I had instructed the FLO to create a word document that could be signed and when we were able to acquire any Flo logs to then print off the word documents and place them in the FLO logs.

I would have continued to liaise with supervisors in order for this to be continually reviewed after the post mortem and continued enquires in relation to both of the deceased. The funeral of KOVARI was put on hold for
