Hey Jacqueline,

I hope you're well.

I had another conversation with Gabriel's former boyfriend Thierry. We were both a bit disturbed to find that someone has posted a Facebook page for Gabriel on September 19th (the day of his funeral). It looks like they have used a passport photo or ID document in order to do so. We checked with Gabriel's brother and it wasn't anyone within his immediate family. I suppose I thought it ought to be brought to police attention.

Also, before Christmas you did suggest that you might be able to speak to me about the concerns I raised regarding the 4 unexplained deaths in Barking during June, August and September. To my knowledge you never called me back. Although I can guess at what you would have said and I understand that information between members of the public and police during an ongoing case is always going to be a one way street.

It would still be good to talk with you for my own piece of mind.

Best,
- John

Dear Jaqueline,

Let me be more blunt.

I have heard that Gabriel and the young guy who died in the same churchyard (Daniel?) were present at the same gay chem-sex party the weekend before Gabriel died. I have had indirect information about the 'party' and this person described a scenario in which older men, drug younger men, in order to take advantage of them sexually. Four young men have died of "unexplained" deaths in Barking between June 21st and September 22nd. Gabriel being the 2nd.

It would be great if I could talk to you or any other officer involved in the case about this.

Best,
- John

Dear Jaqueline,

It has been two months now since I heard any information about how Gabriel died. It's been a busy couple of months at work and I have tried to move on. But recently I have myself thinking about Gabriel more and wondering what might have happened. Yesterday I found out about a 3rd man found dead, unexplained in Barking within a month of Gabriel.

If you include the unexplained death of a 23 year old male on June 21st that's 4 x unexplained deaths of young men in Barking in the space of three months. I find that very hard to get my head around. Especially when I am told by Gabriel's former boyfriend that Gabriel and the man who was found in the same churchyard were present together at a chem-sex party the weekend before Gabriel's death.

I know I am not next of kin to Gabriel, but if you can have a whirlwind romance then I feel like for the 6 weeks he was with me we had a whirlwind friendship. So I feel like I need to know more, for my own closure and also because I worry about what is happening to young men in Barking.

You can call me at anytime.

Best,
- John Pape

Dear John

Thank you very much for the kind words you have regarding Gabriel. Through the conversation I had with you this morning, I got the impression that he was a young male starting out in life and you were kind enough to take him into your home. Whilst with you you gave him support and safety encouraging him to develop.
