

someone or was depressed. I did tell the all police this at the time of the investigation but I was told that the death wasn't suspicious. Approximately a week or 2 after Daniels death I received an email from either Mandy or Adam with a scanned copy of the last part of the suicide letter asking to confirm if I thought this was Daniels handwriting. I wasn't 100% sure if it was his handwriting as the scanned copy wasn't a good quality copy and also majority of communication between Daniel and I was either verbally or through technology so I wasn't used to his handwriting. I never saw the full letter until the Inquest which again was a scanned copy which wasn't good quality. When I was verbally told of what the contents of the letter was about, I felt there was a lot of Gaps missing about what had happened, inconsistencies in the letter to for example Daniel said he was at a 'Mates Place' when Gabriel died but it was later confirmed that it was a church yard that Gabriel was found, And have always wondered why the police never picked up on this.

Daniel never took any drugs that I knew about apart from some cannabis once in Amsterdam. He wasn't the sort of person that would take drugs, he just used to drink alcohol.

The only person that I can think of that may know more about Daniels work life is a lady called Katie IMPEY . She seemed to be good friends with Daniel. She also worked at ISS, I don't have any details for her.
