Subject: RE: Gold Group Cad 4433/20th Sept 2014

Sir,

I noted both death's we have been doing some patrols for rough sleepers. We have a contact with the councils housing advice service (see below) who we pass rough sleepers details on to. Abbey Green and Ruins is very popular with rough sleepers, although a lot of the sleepers we have found there ride the night buses and then sleep there during the morning. I have asked my team to do some early starts to make contact with them.

Thanks James

Good Afternoon James,

Thank you for your time, we are holding a meeting at John Smith House, Bevan Avenue, Barking IG11 9LL at 11.30am on Friday 18th July.

The meeting is in relations to rough sleepers across the borough and what we can do to assist such people, we need to gather intelligence from all area's as to where they may be and I am sure you guys come across a few in the parks.

If you or anyone from your team could attend it would be very much appreciated I will make sure I supply cold drinks and biscuits and the meeting should not take anymore than an hour.

Kind regards,

Alexandra Watkins Morgan

Subject: Gold Group Cad 4433/20th Sept 2014

Team,

I have just come from a Gold Group in relation to Daniel Whitworth dob 22/03/93 who was discovered dead in St Margarets Churchyard, Barking Abbey on Saturday. It would appear he had taken an overdose of GHB and sleeping tablets. This death is linked to the other death we had last month. It appears that Daniel and the other chap had been involved in a sexual relationship....

Reason for my email.....Supt Wilson is concerned about the community feelings about the area becoming known as a haven for gay sex (even dogging) and rough sleepers.

Can we link into the homeless charity that works around Barking and point them in the direction of Barking Abbey and its environs please.

Ds Schamberger has been asked to do an anniversary appeal at some stage so will be in contact soon to discuss resourcing this,

Many thanks,

Mark

Parks - for info also.....
