Today Myself and DC Baxter attended Lambeth with Exhibits for Toxicology to be conducted these were accepted by the lab. They have advised us to call them next week to get an estimated date for results.

We then attended John Papes address who is Kovari's flat mate to attempt to search address and get a statement. He was not present at the address and his phone was switched off. We have left a note asking him to call us.

We then attended ISS food and hospitality where Daniel WHITWORTH worked. We spoke to HR a lady called Siobhan. She is going to email me and DC Baxter Daniels shift pattern and attendance, also sickness and

~~~~~

I have this morning discussed issues around Daniel Whitworth's father wanting to see the note left behind, and also the family's desire to visit the site where Daniel was found.

Actions agreed: The family's visit to the site will be facilitated, and the father will be shown the full note.

CCTV is being expedited - as are searches and statements. I note the update around enquiries at Daniel's place of work, although I have not yet had sight of the statement.

Updates noted.

Actions to be expedited:

- * CCTV collection and viewing (Actions 1 and 7)
- * Outstanding statements
- * Outstanding searches
- * Toxicology for KOVARI to be chased (Action 6)
- * Liaison with Coroner around Whitworth's body (viewing/release)
- * Intelligence on all parties who have come to notice (particularly Whitworth, Kovari, Waumsley, Pape; also Denham and [Sensitive/Irrelevant])
- * Open source around the social networking site and subjects
- * CIU submissions around the phone numbers as per specified parameters

Once the CCTV, statements, research and searches have been completed I will review the position around Whitworth's body being released.

UPDATES

Outstanding statements

I have arranged to take a statement from John Popes - Saturday 11/10/14

Outstanding searches

15/10/2014 15:09

DS 9389 D TURRELL

confirmed that KOVARI was returned to Slovakia naked. KOVARI did not have a special post mortem and hence no police officers would have been required to attend. We know that KOVARI was clothed at the time of being found.

DC Baxter and DS Turrell has checked the property for KOVARI held at KW and there is a suitcase of clothing. The property officer has confirmed the passport was taken out. It is likely the passport was requested by the coroners officer for repatriation of his body. I will confirm this with PC Faulkner.

The VIIDO unit has been given the sim card of KOVARI with a note from the uniformed officers stating it was requested by the coroner. VIIDO are unable to assist as pin number is not known. I will email PC Faulkner to obtain an update in respect of this.

Supervision update:

I have just spoken to DS Turrell regarding updates in the enquiry.

CCTV has been explored and does not assist. Enquiries still outstanding mainly focus around the social media activity.

Toxicology and lab work results are still some time off.

Given the circumstances of this case, and bearing in mind the effect on Whitworth's family and weighing this up against any potential evidence

Details of Investigation

Supervision

All actions have now been completed. The FLO have updated the family. Awaits toxicology results

OIC update

Email received

I am the toxicologist investigating the death of Daniel Whitworth. The work on the pm samples is now complete and my findings include a high concentration of GHB.

The brown bottle in the deceased's pockets was redirected to our drugs department, along with the bottle of cola, as they are better place to analyse drug solutions which may contaminate our equipment here in tox. I believe from my colleagues in drugs that this analysis has not yet been started.

As the tox is complete on the pm samples do you still require analysis of the 2 bottles?

Thanks

Denise
